

OMEGA MANUFACTURING DIVISION

A Division of Magna Industrial Co. Limited

SPECIAL FEATURES

Omega 612 Universal Lubrication & Hydraulic Oil is the premium circulating, hydraulic and general-purpose lubricant that stands up to the most arduous service conditions.

- **Omega 612** is a truly multi-purpose lubricant – has thousands of uses.
- **Omega 612** features an anti-magnetic formulation – will not attract metallic dust and particles.
- **Omega 612** gives superb lubrication – contains anti-wear and anti-rust additives for consistent, reliable, long-lasting protection.

OUTSTANDING PROPERTIES

Omega 612 is the universal lubrication and hydraulic oil that:

- Has a high viscosity index – viscosity remains constant throughout temperature fluctuations and retains its texture regardless of varied conditions.
- Contains anti-foam additive to effectively prevent formation of foam – even at elevated temperatures.
- Contains special supplements to promote interface tenacity and hold the lubricant in position – resists migration and fling-off.
- Is made from only the finest base oil stocks available – withstands extreme pressure.

USE FOR

Omega 612 has a high viscosity index to ensure a strong oil film and a low pour point to ensure excellent performance in even the most difficult operating conditions.

Use **Omega 612** for:

- Chain Drives • Bearings • Gears • Electric Motors • Lathes
- Enclosed Gears • Hydraulic Equipment • Torque Converters • "Poclain" Hydraulics • And complete lubrications of all factory equipment.
