

# 607

OMEGA 607 Synthetic Biodegradable Hydraulic Fluid

## Synthetic Biodegradable Hydraulic Fluid

- *Outstanding biodegradability protects ground, topsoil & water tables.*
- *Superior formulation ensures stable power transfer & lubrication at extreme temperatures.*
- *Absolutely compatible with systems designed for conventional hydraulic oil.*

## SPECIAL FEATURES

**Omega 607 Synthetic Biodegradable Hydraulic Fluid** is engineered around the superior performance characteristics of synthetic esters to replace low-performance vegetable oils often used in hydraulic systems due to their biodegradability.

- **Omega 607's** high degree of biodegradability provides outstanding protection for precious topsoil, ground and water tables.
- **Omega 607** is quality formulated to ensure stable hydraulic power transfer and superior lubrication even at temperatures ranging from -30 °C to 120°C.
- **Omega 607** is absolutely compatible with systems designed for conventional hydraulic oil.

## OUTSTANDING PROPERTIES

**Omega 607** is a synthetic biodegradable hydraulic fluid that:

- Offers thermal stability and oxidation stability superior to the entire range of vegetable oils commonly used in hydraulic equipment operating outdoors.
- Provides smooth operation in high-load conditions and in long work hours at elevated temperatures.
- Lubricates all contact and friction-prone areas while promoting longer operating life in most types of equipment.
- Has minimal effect on seals.

## USE FOR

**Omega 607** is the superior synthetic formulation that offers high performance characteristics, but in an environmentally friendly, ecologically non-damaging medium.

**Omega 607** is recommended for applications where contamination of soil and water from hydraulic oil leakage is likely. **Omega 607's** high degree of biodegradability, coupled with its superior performance characteristics, makes it the ideal choice for use in forestry, wildlife, logging, agricultural, orchard, vineyard, construction, mining and other applications where environmental protection is a must.

Use **Omega 607** confidently where equipment is run in heavy duty conditions in extreme cold or hot.
